

SawStop Industrial Grade Cabinet Saw

Mobile Base

Fully welded construction

Robust design, powder coated solid 1/4" steel

Unique four-bar linkage design for even weight distribution

4000 lb. rated hydraulic lift raises and lowers the saw

High performance ball bearing casters with non-marring wheels

Low clearance for safety

Easy to use non-slip foot pedal

Innovative

Designed exclusively for the footprint of the SawStop Industrial Grade Cabinet Saw

- Accommodates up to 52" attached extension table without additional hardware
- Once the base is engaged for mobility the entire saw, including the extension table, is easily moveable

Easy

No assembly required...ready to roll!

- Three quick pumps of the foot pedal raises the saw
- All four wheels spin 360° for ease of movement and allows for **mobility in any direction**
- A light press on the release safely lowers the saw

Stable

When disengaged, the saws rests firmly on the ground distributing weight directly to the floor, not the wheels

- No flimsy wheel brakes
- The longevity of the casters is greatly enhanced

Specifications

• Footprint	20" X 25"	• Hydraulic Lift	4000 lb. rated
• Capacity	1000 lbs.	• Material	1/4" steel plate
• Wheels	3" Polyurethane	• Exterior	Powder coat
• Casters	360° - full ball bearings	• Weight	54 lbs.
		• Warranty	2 year limited
